Creation of a Special Purpose District

Municipal Utility Districts (MUD), Public Improvement Districts (PID), Water Control and Improvement Districts (WCID), & Fresh Water Supply Districts (FSWD)

Special Purpose Districts (SPD) are independent governmental entities that exist locally and provide infrastructure and deliver specific services, like firefighting, road construction, and water treatment. Districts can be created by local government bodies, the Texas Legislature, or the Texas Commission on Environmental Quality. Generally, SPDs are governed by the commissioner's court of the county of their origin or by a board of directors. In the City of Georgetown, they are governed by a board of directors.

At the City of Georgetown, the City Manager's Office oversees the creation and amendments of Special Purposes Districts which are, for the City of Georgetown, Municipal Utility Districts (MUD) and Public Improvement Districts (PID). For more information on Special Purpose Districts please see planning.georgetown.org/special-purpose-districts.

This Checklist is intended to provide the information and data needed to constitute a complete application. A request for the creation of a Special Purpose District requires review by staff and approval by the City Council in accordance with UDC Section 13.10. Incomplete applications will not be accepted.
